

HOMEWORK

POLICY NUMBER: H100-18 (R2020)

Homework Policy

Homework is an opportunity to consolidate learning, prepare for school and develop good study habits. The nature of the activities varies for different ages and year levels which can be set for up to 4 nights per week and range from 5-20minutes. Children can do a variety of activities to consolidate their skills in literacy and numeracy, this could include:

Junior Primary

- Practising sight words, take home reader
- Preparing for class talk
- Sharing a book with a parent

Primary

- Reading to someone, reading independently or sharing with a parent/carer
- Consolidation of work from class that day
- Preparing for talks, training for events
- Sharing learning from the day with family

We are aware students can be involved in a range of extracurricular activities outside of school which require organisation, persistence, time and involvement. We encourage this as well as supporting jobs around the home that help out.
